v.)
TROPICAL FRUIT, S.P.;)
AVSHALOM LUBIN;)
CESAR OTERO ACEVEDO; and)
PEDRO TOLEDO GONZALEZ,)
Defendants.)

DECLARATION OF LIZETTE LUGO

I, Lizette Lugo, declare under penalty of perjury, in accordance with 28 U.S.C. § 1746 as follows:

1. I make this Declaration based upon my personal knowledge including my review of the Consent Decree in this action, inspections of the Tropical Fruit farm (“Farm”), and consultation with other employees of the Environmental Protection Agency (“EPA”).

 2. I am presently employed as an Environmental Scientist in the Enforcement and

Superfund Branch of the Caribbean Environmental Protection Division of EPA Region 2, Centro Europa Building, 1492 Ponce De Leon Avenue, San Juan, Puerto Rico. I have held this position since I began working for EPA on December 24, 1996. Prior to my employment at EPA, I was employed by the Puerto Rico Aqueduct and Sewer Authority from 1978 until 1996 as a Chief, Permit and Engineering Department, Pretreatment Area.

3. I received a Master of Science Degree in Environmental Health from the University of Puerto Rico in 1987.
4. I have been certified as an EPA inspector by completing the following courses/receive the following certifications: Basic Inspector, 40 Hours Health & Safety, 8- Hour Health & Safety Refresher, Basic Course for Project Officer, TSCA Modules, EPCRA Modules, Field Work with experienced inspectors required before conducting TSCA, EPCRA, and FIFRA inspections, Dangerous Goods Shipping Training Course, Introduction to Groundwater Investigations, Risk Assessment Guidance for Superfund. I have a USEPA Enforcement Officer credential.

5. I have inspected the Farm on approximately 13 to 15 occasions. The first inspection of the Farm in which I was involved was in March, 1997. The most recent inspections in which I was involved took place on January 27, 2004 and October 26, 2004.

6. I have reviewed the terms of the Consent Decree in this action entered by this Court on October 25, 2001. I have reviewed documents submitted by the Farm pursuant to the terms of the Consent Decree.

7. Based on my inspections, my review of documents associated with the Farm, and consultation with other EPA employees, I am familiar with the requirements of the Consent

Decree, including its provisions related to the Work Plan, deed restrictions, pesticide use restrictions, and notification provisions, and with the Farm's efforts towards compliance with the Consent Decree.

Work Plan

8. As of November 24, 2001, and continuing until October 25, 2004, the Farm had not submitted a signed and certified Work Plan setting forth the manner in which the Farm will implement the Buffer Zone, including installation and maintenance of the Vegetative Barriers and removal of trees within the No Spray Zones.

Deed Restrictions on Land

9. As of Oct. 25, 2004, the Farm had not submitted to EPA for review and approval any deed restrictions limiting the use of land owned by the Farm to the west, and across the Rio Yauco, from Buffer Zone Segment C, also known as the cow pasture.

10. As of October 25, 2004, the Farm had not submitted to EPA for review and approval any deed restrictions limiting the use of land owned by the Farm within that part of the Buffer Zone of Farm Sectors Vega 1 and Vega 4.

Unauthorized Pesticides

11. Pursuant to the Consent Decree, the Farm submits certified spray records to EPA indicating, among other items, the date of pesticide application, the type of pesticide applied, the manner in which the pesticide was applied, the area of the farm in which the pesticide was

applied.

12. Pursuant to the Consent Decree, the Farm must obtain advance EPA approval to apply or use any pesticides that have not yet been approved by EPA for use at the Farm.

13. The Farm submitted to EPA a monthly spray record for the period of December, 2001. The Farm's December 2001 spray record states that the Farm applied the pesticide Tilt to banana trees in the Vega Sectors of the farm on December 20 and 21, 2001.

14. As of December, 2001, EPA had not approved of the use of Tilt on banana trees.

15. The Farm submitted to EPA a monthly spray record for the period of March 2002. The Farm's March 2002 spray record states that the Farm applied the pesticide Gramoxone to banana trees in the Vega Sectors of the farm on March 9, 20, and 22, 2002.

16. As of March 2002, EPA had not approved the use of Gramoxone on banana trees.

Pesticide Application Notifications

17. Pursuant to the Consent Decree, the Farm was required to notify EPA of prospective pesticide applications at least 72 hours prior to the application.

18. For the period from the entry of the Consent Decree in October 2001 until July 2002, or approximately nine months, the Farm did not provide advance notice of pesticide applications to EPA consistent with the terms of the Consent Decree.

19. Pursuant to the Consent Decree, the Farm was required to provide to EPA a written monthly progress report identifying all pesticides the Farm intended to apply in the following month.

20. For every month during the period from the entry of the Consent Decree in

October 2001 until the present, or approximately three years, the farm has been submitting to EPA virtually the same written monthly progress report.

21. The spray records that the Farm submitted following each month, showed a wide range of pesticide applications in different sectors of the farm. However, the written monthly progress reports that the Farm submitted prior to each month do not reflect this degree of variation. This inconsistency shows that the Farm has not attempted to accurately inform the EPA of the pesticides that it intends to apply in the coming month in its monthly progress reports.

22. In the course of my duties, I have also reviewed Tropical Fruit's submission dated December 6, 2004 and attached as Exhibit 1. The December 6, 2004 submission contains the November 2004 spray records and the prospective spray schedule for December 2004.

23. The prospective spray schedule for December 2004 contains reference to hand-spray applications of multiple pesticides in the buffer zone.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge. This declaration was executed on the 15 day of December, 2004.

Lizette Lugo
Environmental Scientist
Caribbean Environmental Protection Div.

Dear Ms. Lugo

In Compliance with paragraph #48 of the Administrative Order, we are submitting copies of the progress report of all spraying applied in the farm during the month of **November 2004**.

Any doubts please contact our office or our attorney Germán González.

Cordially,

TROPICAL FRUIT, SP
Avshalom Lubin

December 6, 2004

CERTIFICATION

I have prepared, compiled and / or reviewed the information contained in this document or report and declare, subject to penalties of perjury, that to the best of my knowledge, the information contained herein is true and correct.

A handwritten signature in black ink, appearing to read "Ilan Oliver".
